

Kitchen Dimension Worksheet

Name: _____

Project Name: _____

Phone Number: _____

Email: _____

Step #1

Draw a complete and accurate floor plan of your kitchen. Include all windows and door dimensions. Take all measurements to the outside edges of all window and door trim. Also note the height of all window sills. Wall receptacles and switches should also be noted on the drawing. Draw in all appliance locations as well as the sink.

A

D B

C

Step #2

Draw detailed wall sections of sections A,B,C, & D from step #1. Draw in sink and appliance locations, as well as any desired cabinet features such as three drawer cabinets, glass doors, staggered upper cabinet heights, etc. Please also draw in any switch or receptacle locations that might interfere with cabinet locations.
